Reminder: Updates to Currently Released Assessment and Graduation Rate Data on explore.data.gov

ED has updated the publicly available data on school year 2008-09, 2009-10 and 2010-11 proficiency and graduation outcomes. The files are available on <http://explore.data.gov>, enabling access, use and download to the public, and include:

- Addition of LEA-level reading language arts and mathematics achievement data for 2008-09, 2009-10, and 2010-11
- Updates to previously published school-level reading language arts and mathematics achievement data for 2009-10
- Addition of LEA-level four-year adjusted cohort graduation rate data for 2010-11
- Updates to previously published school-level four year adjusted cohort graduation rate data for 2010-11

The achievement data contain state assessment results collected through *EDFacts* files 075 and 078 and display the number of students assessed and the percent who attained proficiency. The graduation rate data, from *EDFacts* files 150 and 151, display the number of students in the cohort, along with the percent of those students who graduated with a high school diploma within 4 years. Information is presented on student subgroups within the school or district, as well as for the school or district as a whole. This is considered a release of 'provisional' data, updating an already public 'preliminary' release.

To protect the privacy of individuals represented within the data, the graduation rates and proficiency rates have been suppressed for very small student groups and 'blurred'

for larger groups. More information on the methodology can be found in the documentation file, which is made available alongside the data files posted on data.gov.

A summary of the updates is included below. Should you have any questions on the updated data that were released, please contact PSC.

Reminder: Missing Scale Score Metadata Review (FS 159)

PSC sent outreach to states requesting a review of missing data identified in their SY2010-11 and SY2011-12 scale score data (C159). In addition, states were asked to fill out a table with metadata on their SY2011-12 scale scores as well as inform ED if they reported any combined scale scores where students could take multiple assessments in math or reading/language arts within the same grade. The due date for this request was August 14th, 2013.
